

SuperSwitch™ 1

PCI Express-over-cable solution for point-to-point PC communications

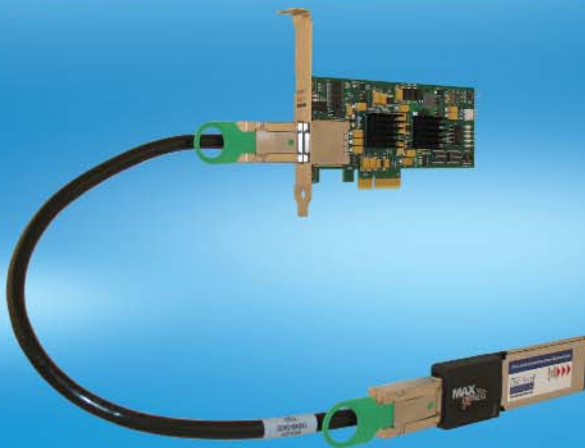

PCI Express-over-cable solution for point-to-point communications

Switch-based Adapter to PCIe x4 Adapter

- Spread-spectrum clocking supported on both PCs
- Data transfers between PCs at x4 speeds of 10Gb/s
- ExpressNet™ driver enables PC-to-PC communication
- PCIe cables in 1m, 2m, 3m, 5m and 7m lengths

Part #: OSS-SS1-PCIe-Xm

Switch-based Adapter to Express Card

- Spread-spectrum clocking supported on both PCs
- Data transfers between PCs at x4 speeds of 10Gb/s
- ExpressNet driver enables PC-to-PC communication
- PCIe cables in 1m, 2m, 3m, 5m and 7m lengths

Part #: OSS-SS1-EC-Xm

Switch-based Adapter to PCIe x4 Adapter

- Spread-spectrum clocking supported on both PCs
- Data transfers between PCs at x4 speeds of 10Gb/s
- ExpressNet driver enables PC-to-PC communication
- PCIe cables in 1m, 2m, 3m, 5m and 7m lengths

Part #: OSS-SS1-CPCIe-Xm

Optional: Order One Stop Systems' 3U Carrier-Class NEBS-3 Server to use with SuperSwitch. Part #: OSS-SYS-5000
