

# PCIe x4 Host to ECA Kit Server to PCIe device

PCIe x4 host cable adapter, target expansion cable adapter, and PCIe x4 cable.

PN: OSS-KIT-EXP-2050

## Features

- The host adapter card inserts into a PCI Express slot on the host motherboard. The high speed cable allows data transfers to and from the host at 10GB/s.
- The target expansion cable adapter is a free-standing x4 adapter board with a x16 connector seamlessly connecting a downstream I/O device to the host computer without software.
