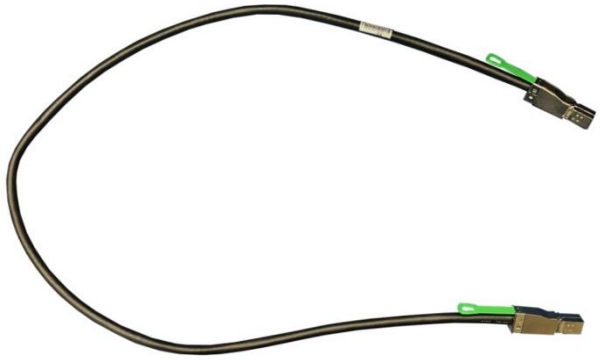
PCIe & Mini-SAS x4 Cable

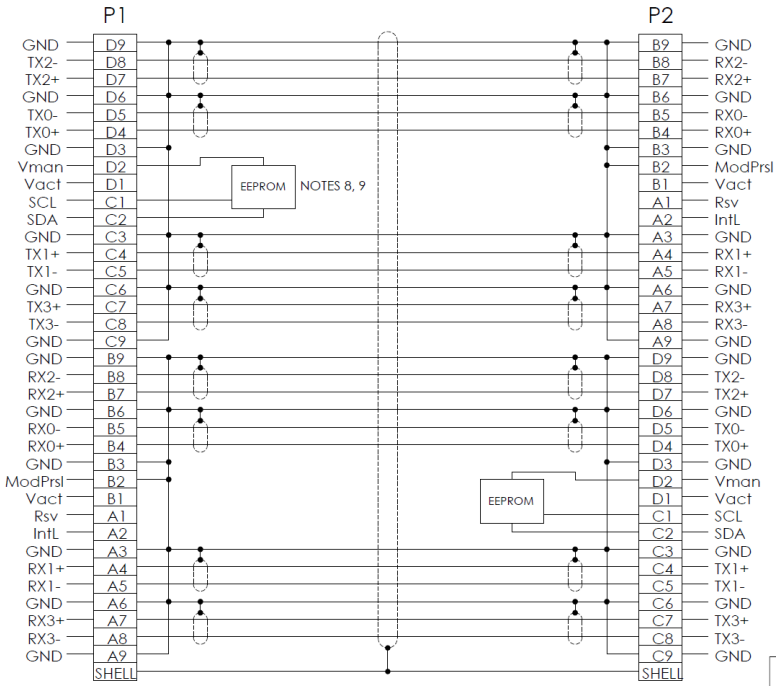
Gen 3 and Gen 4 PCI Express (PCIe) share the same cable with SAS for high speed signaling up to 4m in length. This passive copper cable mates to the SFF-8644 connectors on the HIB6xx family of OSS host interface boards and includes the CMI (cable management interface) and serialized EEPROMs in the cable backshell.

PN: OSS-mSAS-CBL-4-C-xM



Features

- Available in up to 4m lengths
- Mates to HIB6xx family host interface boards
- Single or multiple cables can form larger PCIe links
  - x4 (1 cable)
  - x8 (2 cables)
  - x16 (4 cables)
- Allows transfers to and from the host up to 6GB/s

Specifications


Cable Length:	1m, 2m, 3m, 4m
Cable Options:	x4 (1 cable) x8 (2 cables) x16 (4 cables)
Wire Size AWG:	28 -30
Bend Radius:	4.0" cable bend radius
Agency Compliance:	CE, WEEE, RoHS2
